

# Global Long/Short Equity Fund

## OBJECTIVES AND PROCESS

- Seeks long-term capital appreciation whilst preserving capital in down markets.
- Employs a strategy of gaining long and short exposure in equity securities of issuers in developed markets (countries in the MSCI World Index).
- Uses a quantitative investment process to evaluate multiple fundamental, statistical and technical characteristics covering valuation, growth, return history, risk liquidity and economic sensitivity.
- The fund may invest:
  - in no fewer than three countries
  - at least two-thirds of its total assets in equity securities of companies located worldwide
  - long equity exposure of up to 100% of fund net assets
  - short equity exposure of up to 50% of fund net assets
  - by using futures/derivatives for hedging or efficient portfolio management purposes

## KEY RISKS

**Market risk:** securities may decline in value due to factors affecting securities markets generally, and equity securities generally have greater price volatility than debt securities.

**Smaller company securities risk:** securities of companies with smaller market capitalisations tend to be more volatile and less liquid than securities of larger companies. **Global**

**investment risk:** securities of certain jurisdictions may experience more rapid and extreme changes in value and may be affected by uncertainties such as international political developments, currency fluctuations and other developments in the laws and regulations of countries in which an investment may be made.

**Derivatives risk:** the use of derivatives presents risks different from, and possibly greater than, the risks associated with investing directly in traditional securities. The use of derivatives can lead to losses because of adverse movements in the price or value of the underlying asset, index or rate, which may be magnified by certain features of the derivatives.

Past performance is not indicative of future results. Performance calculations are net of all applicable fees and are calculated on an offer-to-bid basis (with income re-invested). \*Share class inception date. Does not include sales charges and assumes reinvestment of dividends and capital gains. If sales charges were included, returns would be lower.

Investors should note that, relative to the expectations of the Autorité des Marchés Financiers, this fund presents disproportionate communication on the consideration of non-financial criteria in its investment policy.

1. The fund's performance benchmark is 50% MSCI World / 50% ICE BofA US 3-Month Treasury Bill and based on the Fund's targeted 50% less volatility than the MSCI World. Prior to 1 May 2023 the performance benchmark was 50% MSCI World / 50% 3-Month LIBOR. The Morgan Stanley Capital International (MSCI) World Index is a free float-adjusted market-capitalisation-weighted index that is designed to measure the equity market performance of developed markets. You cannot invest directly in an index. The ICE BofA U.S. 3-Month Treasury Bill Index is a measure of performance of Treasury bills with a remaining term to final maturity of less than 91 days. Treasury bills are guaranteed by the U.S. government and, if held to maturity, offer a fixed rate of return and fixed principal value. Copyright 2023. ICE Data Indices, LLC. All rights reserved. You cannot invest directly in an index. The Fund uses the MSCI World Index as a reference for selecting investments and a composite of 50% of the MSCI World Index plus 50% of the ICE BofA US 3-Month Treasury Bill Index for calculating the performance fee and for performance comparison. The investments of the Sub-Fund may deviate significantly from the components of and their respective weightings in the benchmarks.

5. Subject to the discretion of the Board of Directors to determine otherwise, shareholders should note that the dealing deadline is by the close of regular trading of the NYSE (normally 4pm New York time and 10pm Luxembourg time) for all applications for subscription, redemption and switching that are sent directly to and received by the registrar and transfer agent. For all such applications that are sent to and received by the Hong Kong representative, the Hong Kong dealing deadline will apply and such applications will be processed by reference to the net asset value per share of the relevant class of the relevant sub-fund determined as at the close of regular trading of the NYSE (normally 4pm New York time and 10pm Luxembourg time) later that valuation day (or, if that day is not a valuation day, on the next day that is a valuation day). Applications for subscription, redemption and switching that are sent to and received by the Hong Kong representative after such Hong Kong dealing deadline (or on a day that is not a Hong Kong business day) will be forwarded to the registrar and transfer agent on the next Hong Kong business day, to be effected on the next valuation day. A business day shall be a day on which banks in Luxembourg and the NYSE are open for business. For the avoidance of doubt, half-closed bank business days in Luxembourg are considered closed for business.

<sup>4</sup>While the Sub-Funds listed above have access to both internal and external ESG research and integrate financially material sustainability risks into their investment decision-making processes, ESG-related factors are considered but not determinative, permitting the relevant Sub-Investment Managers to invest in issuers that do not embrace ESG; as such, sustainability risks may have a more material impact on the value of the Sub-Fund's investments in the medium to long term. The investments underlying these Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities.
