This closed-end fund is no longer available as an initial public offering and is only offered through broker-dealers on the secondary market. Shares of the fund may trade at either a premium or discount relative to the fund's net asset value, and there can be no assurance that any discount will decrease. The values of, and/or the income generated by, securities held by the fund may decline due to general market conditions or other factors, including those directly involving the issuers of such securities.
